Quantiphi MLOps Offering

Operationalise ML at scale and empower your data scientists to seamlessly deliver ML solutions at enterprise scale with Quantiphi's MLOps Solution.

Why MLOps?

Lack of Standardisation and Model Governance:

69% executives believe that improving the enforcement of AI governance processes is a key to ML Model scalability

Lack of Automation:

25% of a data scientist's time is spent on deployment efforts

Exponential Rise in AI Adoption:

Large enterprises now have **270+** ML models in production

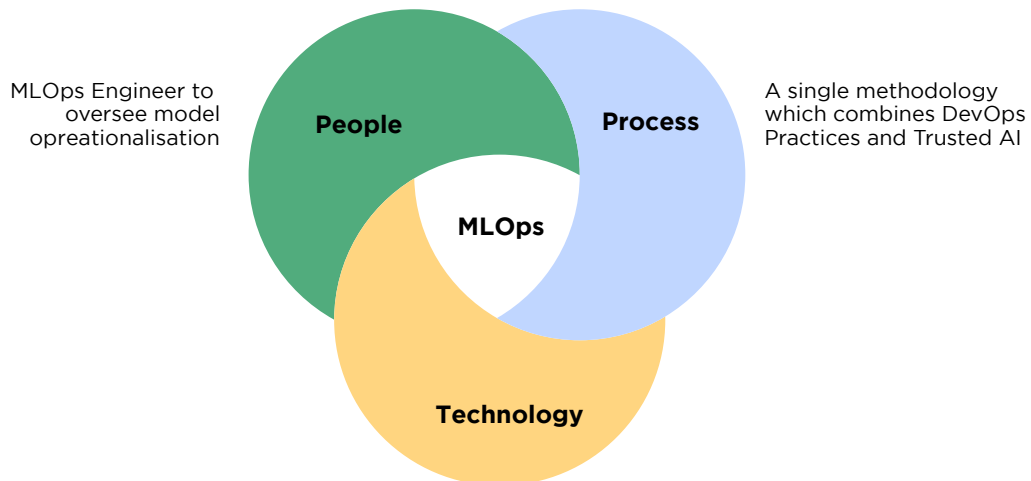

Lack of Risk Management and Audit Framework:

80% executives face difficulty in managing risk and ensuring compliance for AI models scalability

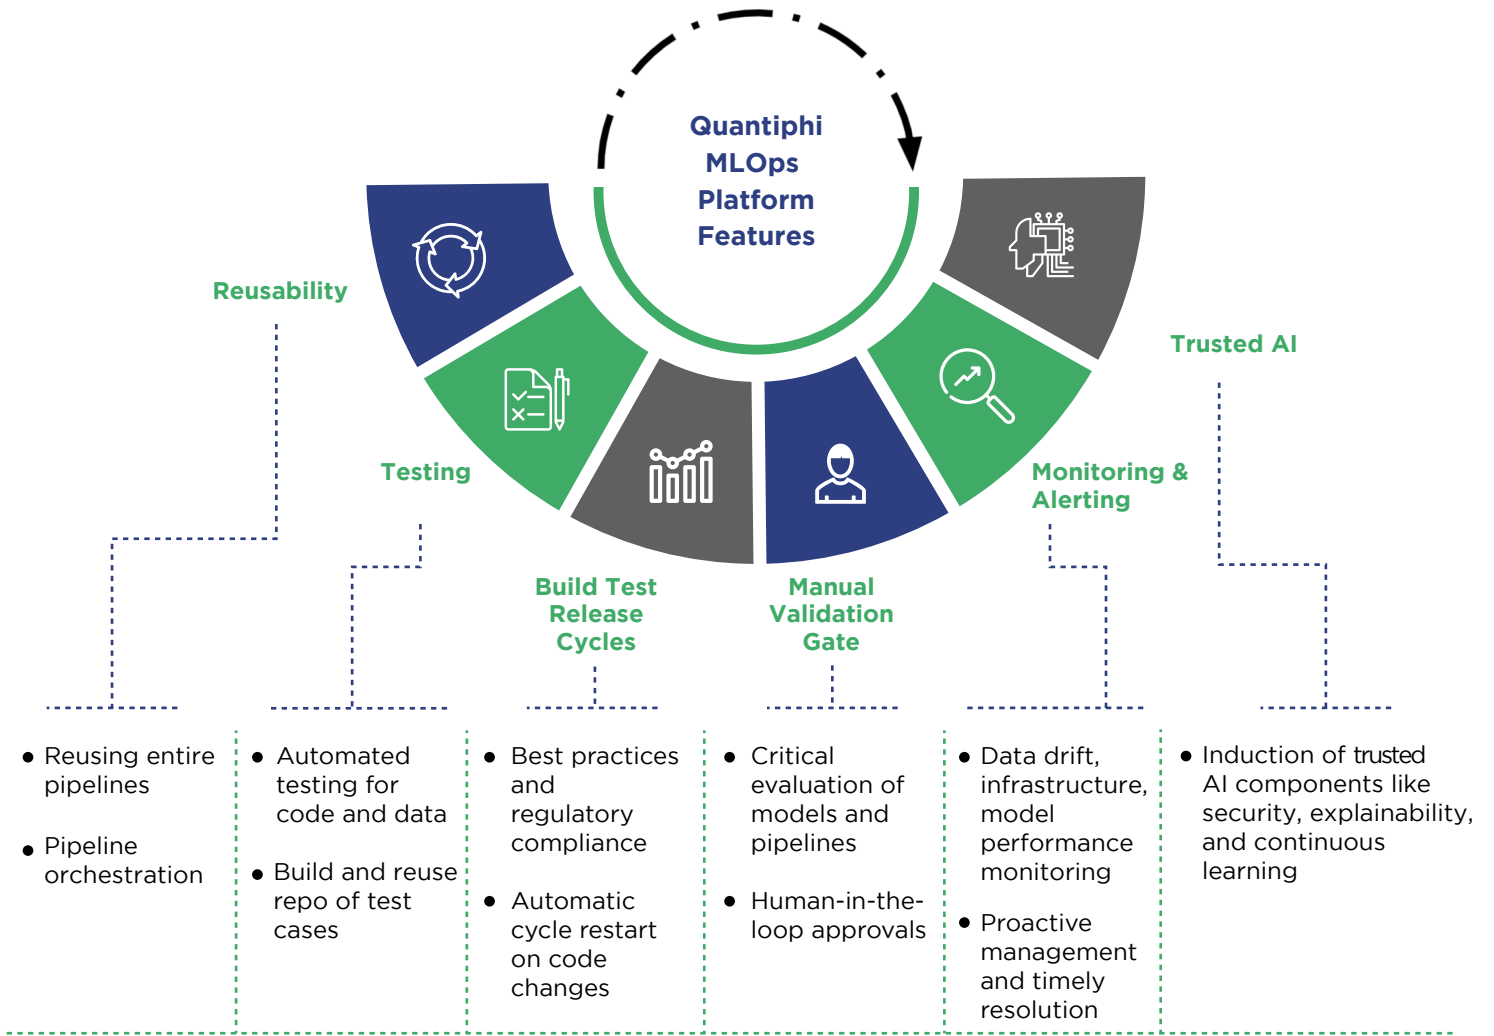

Long Deployment Time:

Most enterprises take **30-90** days to deploy ML models in production

Standardise and Unify ML Artifacts with Quantiphi's MLOps Offering

A centralised framework for enterprise MLOps, ensuring process standardisation and reusability

Quantiphi's MLOps Success Stories

Automated ML Framework

Customer, an American supplementary insurer, processes millions of claims annually and there is a significant reliance on claims specialists to manually review documents, policy/ claims manuals to arrive at the final decision.

Challenges:

- High volume of claims to process
- Unstructured data residing distributed in on-premise databases

Business Impact

- Reduced the time-to-market by 50%, moved 100% of models to production
- Model operationalisation cost reductions
- Better model auditability and governance

Quantiphi is an award-winning AI-first digital engineering company driven by the desire to reimagine and realise transformational opportunities at the heart of business.
