plan to increase the
budget to leverage
alternative data to
identify innovative ideas
to boost alpha

\$16Tn

AUM is expected to be
managed with the
support of Robo-Advisors,
by 2025

What is baioniq? 

baioniq is a Gen AI Platform developed by Quantiphi, with the primary aim to amplify productivity of knowledge workers. It is a search plus conversation interface that can be used by enterprises of all sizes to scale & automate knowledge tasks and derive personalized insights out of extracts, documents & more.

Tell me more about it. 

Here you go.....

With  baioniq You Get:

01.

Increased Productivity

baioniq helps in improving the productivity of knowledge workers by automating downstream tasks

02.

Improved Decision Making

baioniq generates insights from documents, helping employees make better decisions

03.

Enterprise Ready Integrations

baioniq integrates with enterprise systems (such as EPIC) and fetches relevant information needed for the LLM to facilitate the downstream task.

04.

Domain adaptation at scale

baioniq enables fine tuning of language models. It houses a large repository of domain specific created & curated fine tuning data. baioniq also facilitates RLHF so that the model is tuned further with human feedback.

Integrate Generative AI in the Capital Market Value Chain

Integrate Generative AI in the Banking Value Chain

Quantiphi Success Stories

Gen AI Assistant for Underwriters

Problem Statement

Virtual agent to resolve account and profile related queries, with insights on intent grouping and sentiment analysis

Solution

Quantiphi developed a generative AI assistant that could perform QnA, search and summarisation based tasks on underwriting manuals

100%

Reduction in underwriting time

Smart Assistant for Customer Service Representatives

Problem Statement

Client, a global life insurer, had their customer service reps flooded with calls, where reps need to go through knowledge base comprised of 80,000 documents leading to prolonged wait time

Solution

Quantiphi developed a QnA based assistant wherein customers could interact in self-service mode and get queries resolved

12%

Reduction in customer calls

Quantiphi is an award-winning AI-first digital engineering company driven by the desire to reimagine and realise transformational opportunities at the heart of business.
